

Would you like to participate in a National Survey with the University of Hawai'i's Center on Disability Studies?

Requirements for involvement:

1. The participant should be a person with disabilities from a culturally and/or linguistically diverse background.
2. The participant should be at least one to two years out of high school, with a maximum age of 25.

-
- The survey will be administered in late summer early fall of 2002.
 - All participants will be interviewed over the phone or in person.
 - Your name will NOT be given out or used in any publications. CDS respects your privacy and appreciates your support.
-
